## RI Commercial Energy Code Webinars

National Grid's Energy Code Technical Support provides Rhode Island code officials, builders, subcontractors, and design professionals with free energy code trainings and support.

Please join us for free webinars that provide a deeper dive into the Commercial Energy Codes including **Lighting, Lighting Controls and Other Electrical Provisions** and **Introduction to Building Commissioning**.

Summaries for each of these sessions can be found below.

Date & Time	Session Title	Register through the link below
June 2, 2020 9:00 AM-11:00 AM	Lighting, Lighting Controls and Other Electrical Provisions	<a href="#">GoToWebinar #2</a>
June 4, 2020 9:00 AM-11:00 AM	Introduction to Building Commissioning	<a href="#">GoToWebinar #3</a>

These sessions focus on the current International Energy Conservation Code (IECC) with Rhode Island Amendments.

**Commercial Lighting, Lighting Controls and Other Electrical Provisions:** This session will cover the updated lighting and lighting control provisions of the 2019 RI Energy Code. Code revisions have included expanded provisions for daylighting and automatic lighting controls. We will discuss compliance options as well as some of the recent developments in integrated multi-function lighting controls. Real project examples will help to provide code compliance opportunities.

**Introduction Building Commissioning:** This session will highlight how building commissioning supports owner's energy conservation goals across all commercial buildings, from smaller simple buildings to high-performance complex buildings. During this webinar we will discuss actual project case studies highlighting how the commissioning process was executed and how it met the energy efficiency code requirements at each step along the way.
